**425 sessions**  
**194 companies**

# Smart City Online

Always stay connected without boundaries

**S.C.O.P.E.**

**Pavilion**

**Smart Live**

**Matchmaking**

# S.C.O.P.E.

Smart City Online Portal Entry (S.C.O.P.E.) is a multi-faceted platform presenting a wide variety of smart solutions for global visitors to explore opportunities.

**439 solutions** have been collected from **400+ companies** and displayed to over **249 thousand** visitors (until May 2021).

The screenshot shows the Smart City Online portal interface. At the top, there is a navigation bar with links for About, SCOPE, Smart Live, Pavilion, City Page, and SIGN IN. A search bar is located below the navigation. The main content area displays a grid of smart solutions. The first solution is 'FMCS Facility Monitor Control System' by MIEC. The second is 'Tainan City Autonomous Bus Experiment' by Tainan City Government. The third is 'INAP Sleep Therapy System' by Somnics, Inc. The fourth is 'Liquefied Petroleum Gas (LPG) IoT Sol...' by Wave-In Communication. Each solution card includes a thumbnail image, a title, a brief description, and a 'Smart Award' badge.

# Pavilion

Your first and best virtual pavilion with customized space, maximized exposure, and wide international outreach. **25+** pavilions have been established online.

Grenoble-Alpes Metropole

## FEATURE

The screenshot shows a virtual pavilion feature for Grenoble-Alpes Metropole. The feature is titled 'Grenoble-Alpes 2022 European Green Capital'. It includes a video player showing a city scene and a text area with the following content: 'Grenoble-Alpes Metropole is a French middle size, high-tech and industrial urban area located in the Alps and composed of 49 municipalities. As an intermediate administrative level, it is in charge of energy mobility, waste management, water and sanitation, but also economic development, social housing, etc. For the whole district of Grenoble, some of them rural and metropolitan, others dense and urban. With four million inhabitants, almost 6000 businesses, 10000 employees, numerous recent flats and jobs, and along international relations, it is deeply oriented toward the smart city transition: from electric, urban transportation, circular economy, local food policy) with the support of its active local SDG partners, research facilities, engaged NGOs and local leaders, who contributed to the European green capital award 2022. Past experience: Partnerships with local companies (experimentation, demonstration, ...) Support for 40 projects of social work.'

# Smart Live

Since 2020, Smart Live has listed and broadcast nearly **100** sessions featuring diverse forums, seminars, group matchmaking, and more, on endless issues of tomorrow cities.

The screenshot displays the 'Smart City Online' website interface. On the left, a vertical list of events is shown with dates and titles. On the right, a detailed view of a session is displayed, including the title, time, venue, mode, and a description. The session title is '2021 World Telecom Smart City Conference Session I : Work Together to Create the Smart City'. The description discusses the importance of 5G technology in smart cities and mentions the '5G x AIoT Smart City and Global AI Application' theme.

# B2B Matchmaking

During the SCSE 2021, **425** online matchmaking sessions have taken place through our platform. Opened on every Wednesday, the system allows businesses to find and book meeting with their key persons.

The screenshot shows the 'Smart City Matchmaking system' interface. The top part features a banner for the '2021 Smart City Summit & Expo' with the text 'SCSE, an IoT Solution Fair'. Below the banner, there are 'Attendee Login' and 'Exhibitor Login' buttons. The bottom part of the screenshot shows a meeting details screen with the title 'Welcome to SCSE B2B meeting!' and a list of instructions for participants, such as 'Please check your microphone and sound before starting the meeting.' and 'The meeting will last only 30 mins per session.' The meeting is for 'TCA' and 'SCSE'.
